Jashwanth Dasari

+1 (561) 843-3032 | jdasari2024@fau.edu| LinkedIn Jashwanthdasari | Github | Portfolio | Boca Raton, Florida, USA

SUMMARY

Data Science and Machine Learning enthusiast with expertise in Python, SQL, and Data Visualization. Experienced in developing AI-driven solutions, database management, and cloud computing. Passionate about leveraging analytics for real-world impact and problem-solving.

EDUCATION

Florida Atlantic University, *Masters in Data Science and Analytics* |Florida, USA   GPA: 3.88 / 4.0   **Dec 2025**
Key Coursework: Data Science, DBMS, Data Mining and Machine Learning, Cloud Computing, NLP, IR, Gen Ai Software Dev Lifecycles

Kamala Institute of Technology, *Bachelors in Electronics and Communication* |India GPA: 3.18 / 4.0   **July 2023**
Relevant Coursework: SQL, Data Analytics, AI & IoT, Digital Signal Processing, Embedded Systems, VLSI

EXPERIENCE

IT/Data Analyst Intern *Help Us Grow (H.U.G) Reading Program*   **May 2025 – Present**
- Working with real-time data to optimize program insights and decision-making.
- Managed and cleaned 2,500+ records using Zoho CRM and Excel, and built 10+ AWS QuickSight dashboards, improving data accuracy, reducing retrieval time by 40%, and boosting student attendance by 25%.

ACADEMIC PROJECTS

Predicting Maternal Health Risks Using Fitbit Data   **March 2025**
- Developed a machine learning model to predict high-risk maternal health conditions (postpartum depression, preeclampsia, etc.) by analyzing Fitbit data at different pregnancy stages.

Project Lead, Smart Parking System using Python and OpenCV   **March 2023 – May 2023**
- Led a team to develop a real-time deep-learning algorithm for smart parking using OpenCV. Enables automatic parking space detection, reducing human effort and recognizing occupied and accessible spaces.
- Achieved 25% faster parking space detection compared to traditional methods.

SQL Data Analysis on Healthcare Services   **August 2022 - September 2022**
- Analyzed patient and service information to uncover trends using complex SQL queries.
- Optimized database performance by indexing and query tuning.

PUBLICATIONS

- *Smart Parking System using Python and OpenCV* [DOI]   **August 2023**

  Published in the "International Journal for Research in Applied Science and Engineering Technology (IJRASET)", ISSN:2321-9653; IC Value: 45.98; SJ Impact Factor: 7.538, Volume 11 Issue VIII.

- *Smart Ration Card System using RFID & IoT* [DOI]   **May 2023**

  Presented at "FACET-23",National Conference.

- *Presented a paper on AI & Robotics conducted by NCIET-22*   **March 2022**

ACHIEVEMENTS & CERTIFICATIONS

- **Winner - All of Us Hackathon:** Developed a predictive model to identify high-risk maternal health patients using Fitbit data.   **March 2025**
- GATE-2023, Organized by IIT Kanpur (AIR-3361)
- Google Data Analytics Certificate   **April 2024**

TECHNICAL SKILLS

Programming	Python, R, SQL, C
Web & Scripting	HTML5, CSS3, JavaScript
Data Analysis & Visualization	Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau
Databases & Cloud	MySQL, PostgreSQL, MongoDB, Google Cloud, AWS (Basic)
Tools & Technologies	Jupyter Notebook, Git, Github, Docker, Excel

WORKSHOPS & CO-CURRICULAR ACTIVITIES

- Led a 3-day Environmental awareness campaign, distributing 500+ plants to the students and staff at KITSOZEN'22
- Submitted a solution a problem statement in "Smart India Hackathon 2022"

LANGUAGES

- Fluent in English, Telugu, and Hindi (Oral & Written)
